

Colostrum

Pure Bovine Colostrum – Is not just for Cows!

There are several books and booklets on the market that go in to great detail about colostrum, its source, how to take it, shopping for it, its roll in helping to protect the immune system from modern day threats, how it helps in destroying cancer causing agents and other toxins in the gastro–intestinal environment before they can damage the body; how it will enhance the immune system to help avoid the need for antibiotics as well as counteract their immune–damaging effects, how it helps to prevent ulcers and other gastric related problems or health issues.

These booklets also contain information on how to choose the best colostrum, dosing recommendations, including capsules vs. powder, along with information about any possible mild side effects such as slight insomnia, in a few, if taken late in the day, with the only other reported side affects being minor headaches, muscle aches, and in a few minor stomach upsets, with symptoms reportedly disappeared after a day or two.

You will also read about research results of using colostrum to fight against:

Arthritis Cancer Herpes
Asthma Candida Autoimmune Diseases
Allergies Fibromyalgia High Cholesterol
Bronchial Pneumonia Multiple Sclerosis Colitis
Diabetes Cellulitis Viruses & Bacteria
Infections Parasites Treatment of Ulcers
& Other Gastro–Intestinal disorders
And&& Much More

Research has been able to show that:

Everyone can benefit from Colostrum – infants, children, adults and the elderly
Animals including horses, cats and dogs can also benefit from Colostrum. Colostrum powder is a non–toxic, non–allergenic food supplement that has no negative interactions with drugs, food or other supplements, is pleasant tasting and smelling. Colostrum's immune factors help support and regulate the immune system while its growth factors help regenerate cellular tissue, regulate glucose, build lean muscle mass, target fat for energy and increase endurance.

Earth Song Ranch has its Colostrum collected from specially selected, USDA inspected, controlled, healthy Grade "A" dairy herds, from the first milking. It is pooled, concentrated then prepared using a proprietary process which preserves the powerful immune factors, some of which include Immunoglobulin's, Lactoferrin, Leukocytes, Cytokines and Interferon. It is packaged under a license issued by the State of California Department of Health Services, Food & Drug Division, adhering to strict state standards and regulations.

Earth Song Ranch's Colostrum is 100% pure colostrum with no fillers, no whey and no other delivery system ingredients added to dilute it.

All of the Earth Song Ranch's Colostrum liquid is quality control checked, and the finished product is tested in order to guarantee top quality & activity using Enzyme Linked Immunosorbent Assay (ELISA). The Immunoglobulin's activity is measured using the latest Radial ImmunoDifusion (RID) technique. A complete nutritional analysis is also performed and available through a licensed independent laboratory.

Earth Song Ranch supplies only pure efficacious colostrum powder, that reflects the integrity of the company. Unlike other competitor blends of colostrum, ours provides excellence in not only top quality, but does so without over-extracting and diminishing nature's natural occurring immune and growth factors. Earth Song Ranch continues to stand behind its products with 100% percent assurance to its customers.

Colostrum is a nutritional supplement, not a drug. Earth Song Ranch is not permitted to make health claims about its colostrum products. However, there are thousands of research papers and clinical trials, which have been performed. If you would like some help with locating a particular research paper on a particular subject, please feel free to contact us at Earth Song Ranch's.

Many of the people, who purchase Earth Song Ranch's natural products, including Colostrum, use them while at the same time going through their mainstream medical or veterinary treatments for their animals. Earth Song Ranch is here to encourage people to educate themselves on the overall healing process; regardless of what else a person is doing, alternative or allopathic. Earth Song Ranch is making available products, as well as educational materials, so that people can make those choices themselves, their horses and companion animals; Earth Song Ranch encourages its customers to consult qualified, licensed health care practitioners in order to make those choices.

Because of Colostrum's nutrient rich composition, studies have shown that it may be beneficial in improving certain aspects of athletic performance, including endurance; it may also help treat certain infections, and viruses.

As with any health-related product, it is recommended that you consult your physician or veterinarian prior to use, or if you or your animal may have any medical conditions. The below referenced booklets are available from Amazon.com. or at most health food stores.

Earth Song Ranch Recommends the Following Books:

"COLOSTRUM- Nature's Healing Miracle"
by Dr. Donald R. Henderson, MD, MPH
& Deborah Mitchell

"COLOSTRUM: Amazing Immune System Enhancer"
by C. M. Hawken
